WORLD

PHOTOGRAPHY DAY

19TH AUGUST

World Photography Day is an annual celebration of art, science, and history of photography. It is observed every year on August 19th to pay tribute to the art of photography. This day is commemorated with an aim to encourage people who want to pursue photography as a hobby or career. It has also become one of the most important and widely used modes of communication in the digital era.

On this particular day, the students of GIIS capture different ideas and share their world with others, try to dwell in the imaginations of other photographers and moreover try bringing more happiness through the means of photography. They celebrated the creativity and nuances of photography that captivates us for years..

A photograph is a
Moment
- when you press
the button,
it will never come back

THANK
YOU
