

Dear Readers,

**“The role of a great leader is not to give greatness to human beings, but to help them extract the greatness they already have inside them- J. Buchan”**

ARCA-Giis is overwhelmed to release the Newsletter for October & November. In this issue, we will recount the various projects and events which have been successfully organized by Team of ARCA-Giis. The contribution and dedication of the educators, students and non-teaching staff of ARCA-Giis fraternity is continuously helping the newsletter in achieving new horizons. The newsletter provides a perfect platform to highlight the literary and artistic segments of the ARCA-Giis family. The purpose of this school newsletter is to showcase the hidden potential within the students and help them in attaining the arena of success.

We would like to thank all the stake holders for their kind and continuous support in the progress of this institution.

**“Logic will take you from A to B. Imagination will take you everywhere.”**

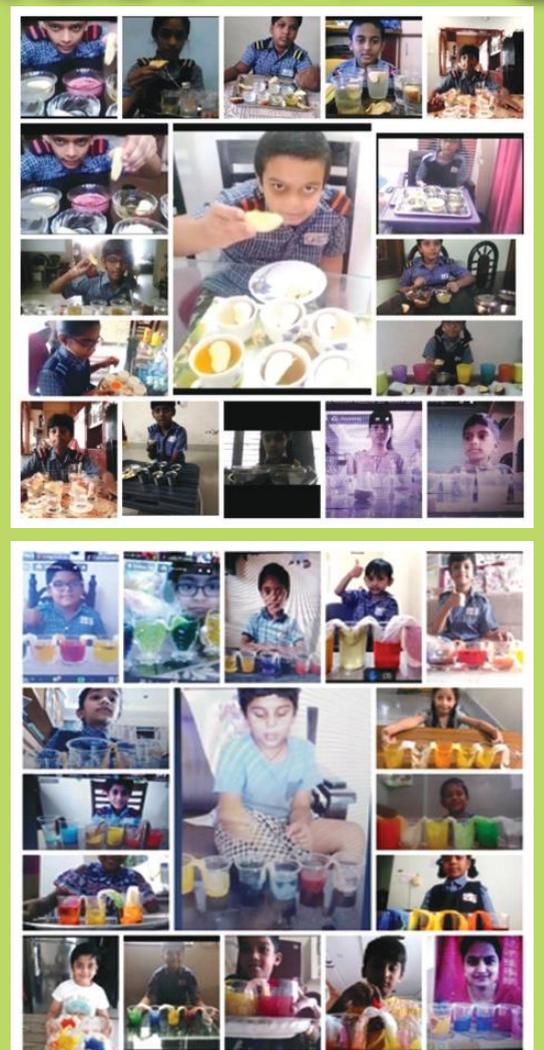

## **EVENTS AND CELEBRATIONS @** **ARCA-GIIS**

### **EXPERIMENT DAY ACTIVITY**

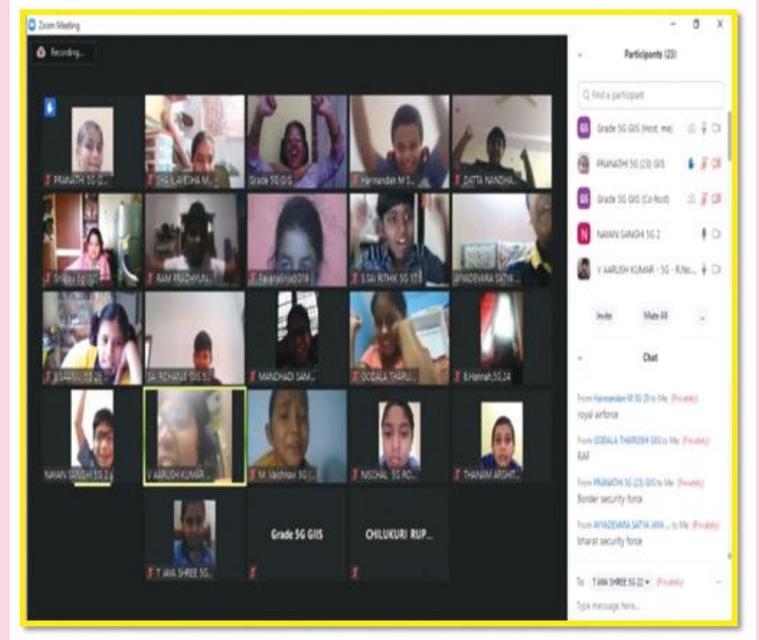

ARCA-Giis organized the Experiment Day on 29.10.2020 & 30.10.2020 to introduce the hidden mysteries of science, prove the talents of budding scientific minds and to motivate the young scientists. ‘Water Walking’ activity was conducted for grades 1 & 2 and Balloon powered car for students of grades 3 & 4. The activity was aimed to imbibe students with scientific temper. Oxidation activity for the students of grades 5 & 6 was quiet interesting. Through this activity of experiment day, the students explored more about the subject and developed skills of ideation.

# Quiz On Armed Forces

ARCA-Giis on 29 October 2020 organized a quiz on Armed Forces for grades 5 & 6 students . The activity was aimed at creating awareness of the different types of Armed Forces. Students learnt about the services of Armed Forces, different weapons used by them for security purpose- National and international. The quiz was fantabulous as the students enjoyed participating with great energy and enthusiasm.

# Quilling Competition

**Topic- Make an attractive greeting card.**

To discover the undiscovered talent, innovative competitions are regularly organized at ARCA-Giis. It is about encouraging, nurturing and showcasing every child's natural creative flair. Through these contests students learn to explore the extent of their imagination and express themselves without any fear.

On 31 October 2020, ARCA-Giis had given a platform to the students of Grades 1 to 3 to participate in Paper quill Art competition. Paper quilling is an art form which

involves cutting paper into long thin strips, rolling and pinching the pieces into different shapes, and then sticking the shapes together to form a decorative art. It's a craft activity which adds on to every child's creativity. On this day, the students had prepared a greeting card which was adorned with paper quilling.

The students came up with mesmerizing ideas. They created different patterns, flowers, butterflies, Diya's, etc. in their greeting card which were amazing and striking.

# Dress up like a Fruit or Vegetable

ARCA-Giis organized an activity on "Fruit and vegetable fancy dress show" was conducted for the students of grades I – III on 06 November 2020. It was scintillating and mesmerizing to watch the tiny tots dressed up as different fruits and vegetables. It was a noteworthy event as it created a platform for the little kids to express and speak confidently. Students dressed up as apple, grapes, banana, papaya, carrot, mango, pineapple, tomato and many more fruits and vegetables.

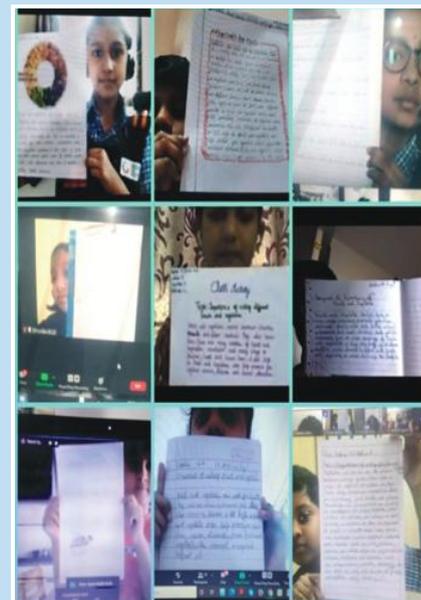

The activity was aimed to provide an opportunity to the students to be exposed to public speaking, bring out their inner talent, to boost their self-confidence and also to create awareness on the health benefits of having fruits and vegetables in their daily diet. The students really had a good time. Their performance was highly adorable.

# Paragraph writing Activity

## Topic- Importance of eating fruits vegetables.....

On 06 November 2020 ARCA-Giis has conducted Paragraph Writing Activity on the topic "Importance of eating fruits". All the children were excited to participate. Students of grades 4, 5&6 came up with different thoughts and ideas to express about the importance of fruits. They shared the points like - Fruits are naturally sweet to taste, low in calories, fat, sodium and cholesterol, they contain many vitamins and nutrients that reduces risk of various health related problems. Also they shared that some fruits give body energy as they contain carbohydrates which is the main source of energy. Children enjoyed the paragraph writing activity very much by giving their opinion. They also took an oath that they will add fruits and raw vegetables to their breakfast and dinner.

## DIWALI CELEBRATIONS

The celebration of Diwali is a time to reflect on and evaluate our thoughts, words and actions over the past year. It is a time to discover how we can be more loving, kind, respectful, and skillful towards ourselves and others.

To make the students understand the importance of Diwali, ARCA- Giis had a celebration during the virtual classes on 13 November 2020.

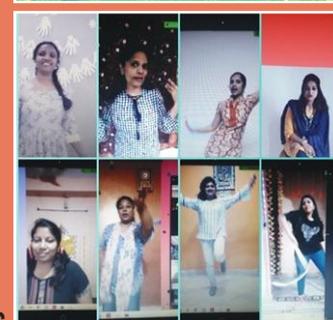

Candle decoration activity was conducted for grades 1 & 2. Children had come up with extravagant creative ideas. Diya decoration activity was conducted for grades 3 & 4 which exhibited the interest and skill lying in the students. Children decorated diyas with colors and glitter. Rangoli activity was conducted for grades 5 & 6. The stunning designs of rangoli were alluring and fascinating. Colorful wall hangings prepared by the students were also one of the brilliant attractions of the activity.

## CHILDREN'S DAY CELEBRATIONS

Children's day is one of the best days of the year for every kid. It is celebrated on November 14, on the birth anniversary of the Jawaharlal Nehru in schools across the country. ARCA-Giis also celebrated children's day with a plethora of activities designed for the children. It started with the assembly followed by a classical dance performed by Ms. Lalitha, which has marked a wonderful beginning to the day.

The festive atmosphere continued to upbeat with a song by teachers, This paved into another scintillating dance performance by the teachers, which was the highlight of the day. Teachers created a fun filled atmosphere with their spectacular performance. Children thoroughly enjoyed and danced along with them. The celebrations came to an end with the puppet making activity and a puppet show which brought smile on the faces of all .Overall it was fun filled entertainment for the students.

# Grade-1 & 2 Experimental Day Activity

## Topic- Rushing Colours

ARCA-Giis conducted science activity on 28 Nov 2020, as a part of 'Experiment Day, an initiative undertaken to encourage the young scientific minds.

Under the guidance of science teachers, students of grades 1 & 2 participated in this activity. Students observed the rushing of colours with the help of milk and some food colours. It was inspiring moment to see students occupied with the experiment. Students were seen with with lot of enthusiasm and fervor. The activity has created a good learning environment.

# Grade-3 & 4 Experimental Day Activity

## Topic-Volcanic Eruption

ARCA-Giis conducted activity on 28 November 2020, as a part of 'Experiment Day, an initiative undertaken to encourage the young scientific minds.

Under the guidance of science teachers, students of grades 3 & 4 participated in this activity. The experiment involved the students in making a volcano of their own. Every child was very excited to see the gas bubbles coming out which is correlated with hot gases that come out of the earth surface in the form of lava. Students were completely engrossed while doing the experiment. The day was a success as the students enjoyed the activity with hands on experience. It was fun learning for the students.

# Grade-5 & 6 Experimental Day Activity

## Topic-Respiration in plants through stomata

ARCA-Giis conducted an activity on 28 November 2020, as a part of 'Experiment Day, an initiative undertaken to encourage the young scientific minds.

Under the guidance of science teachers, students of grades 5 & 6 participated in the activity, 'Respiration In Plants through Stomata'. Students were very keen at observing the presence of stomata in leaves. They were excited and amazed to observe the bubbles coming out of the leaf while doing the experiment. The activity provided first hand learning experience and students had a good learning experience.
